O'DWYER

EVERY PIECE TELLS A STORY

Our jewellery is characterised by clean and precise stone-setting created by using a microscopic technique that Michael learned during his time in Belgium. The influences of old techniques meet new contemporary styles, creating romance and timelessness, which are the signatures of O'Dwyer jewellery.

All of our goldsmiths and stone-setters are fully trained in the O'Dwyer Studio techniques, with diamonds & gemstones being set in minute detail under microscope.

JULIET

Juliet is a romantic, timeless classic that we are very proud of. The Juliet Collection is, with its variations and flexibility, one of our most popular designs. We offer all our Juliet models with diamonds, but also embrace sapphires and rubies in the designs.

Pebbles

Like pebbles on the beach, no two are the same. Each piece is unique and special. A playful collection of cocktail rings to bring colour and beauty to your day.

Target

Our Target Ring is based on the vintage design of rings of the same name but the gallery (the underside of the ring) is our design and we think it is truly magnificent. Influenced by the Art Deco period with a dash of Art Noveau it makes this ring stunning top to bottom.

Grace

The Grace Ring is named for the elegant beauty of Princess Grace of Monaco. Soft elegant colours set in a halo of sparkling white diamonds creates a timeless sophisticated ring that will forever look beautiful.
