O'DWYER

EVERY PIECE TELLS A STORY

Our jewellery is characterised by clean and precise stone-setting created by using a microscopic technique that Michael learned during his time in Belgium. The influences of old techniques meet new contemporary styles, creating romance and timelessness, which are the signatures of O'Dwyer jewellery.

All of our goldsmiths and stone-setters are fully trained in the O'Dwyer Studio techniques, with diamonds & gemstones being set in minute detail under microscope.
