# TARGET

Our Target Ring is based on the vintage design of rings of the same name but the gallery (the underside of the ring) is our design and we think it is truly magnificent. Influenced by the Art Deco period with a dash of Art Noveau it makes this ring stunning top to bottom.

# O'DWYER

EVERY PIECE TELLS A STORY

Our jewellery is characterised by clean and precise stone-setting created by using a microscopic technique that Michael learned during his time in Belgium. The influences of old techniques meet new contemporary styles, creating romance and timelessness, which are the signatures of O'Dwyer jewellery.

All of our goldsmiths and stone-setters are fully trained in the O'Dwyer Studio techniques, with diamonds & gemstones being set in minute detail under microscope.

The background of the image is a soft, pink-toned marbled paper. The marbling pattern consists of delicate, swirling veins of a slightly darker shade of pink and some hints of white, creating a fluid, organic texture across the entire surface.
